

Olveston Primary School - South Gloucestershire

Main Contractor -	Moss Construction
Client -	the Board of Governors Olveston Primary School
Services Consultant -	Arup
Architect -	Stride Trelglown
Services Value -	£165,000

Axiom have recently designed and installed the Mechanical & Electrical services for the new school buildings extension at Olveston Primary School.

The school has been provided with a new main hall which is being used for activities such as PE and Assembly and doubles up as a dining hall at lunchtime. In addition to the hall, a fully equipped commercial kitchen has been installed to enable on site school meals to be provided for the children. Associated additional toilets, store rooms and a covered play area also formed part of the package.

Following much development and consultation with the client the project was delivered on time in November 2006 and is successfully in use.
