# Cheltenham Ladies College – Accommodation Refurbishment

<b>Client -</b>	<b>Cheltenham Ladies College</b>
<b>Main Contractor -</b>	<b>Rydon</b>
<b>Architect -</b>	<b>Quattro</b>
<b>Services Value -</b>	<b>£1.2M</b>

The St Helen and St Austin student accommodation blocks are existing junior school residencies housed in beautiful 1930’s architecture.

Axiom have been delighted to work with Rydon Construction in the phased refurbishment of these properties. Mechanical and Electrical works including lighting, small power, fire alarm, heating and ventilation have been coordinated into the existing building. The outstanding architectural features of these buildings provided certain challenges but the end result was a great example of how modern energy efficient services can be incorporated into an existing listed building.
